Highway Map of OKLAHOMA

"THE RIGHT WAY"

Complete Road Information

COPYRIGHTED BY
HIGHWAY MAP CO.

TOPEKA, KANSAS

D-03913

"The Right Way"

THE object of this Highway Map is not only to take the "Grief" out of motoring, but to acquaint you with the best roads and reliable places in the various towns and cities you may visit.

The Highway Map Co. acts as a guide who has investigated the places ahead of you and in selecting these places, ability to render proper service and charge fair prices has been the first requirement.

With this Map in the pocket of your car you can drive into a strange territory or a strange town with as much confidence as if you knew the place and the people intimately.

You want a reliable place to have repairs for the car made; you want a reputable druggist to fill a prescription; you want a respectable hotel at which to stop over night, or a tourist park at which to camp out; also you want a filling station where proper service is given you, and you want a good, clean cafe in which to eat your dinner. This information is shown on the margin of the map, listed under each town, arranged alphabetically for your convenience.

In front of each station you will find a sign, as shown below, reading "FREE HIGHWAY MAPS," and you will also find it a place you can patronize without hesitation. By the sign prominently displayed you are invited to ask for a Highway Map, not only for the state you are already in, but any adjoining states.

By obtaining a map of the state ahead, you are enabled to plan your route through that state in advance. This information will save you time and money and will greatly increase the pleasure of your trips.
